Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Election/Restrictions

1. Applicant's election without traverse of group I, claims 1-4 in the reply filed on 1/18/05 is acknowledged.

The requirement is still deemed proper and is therefore made FINAL.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 1-4 rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1, line 3, "a supporting" should be changed to --a supporting ring--.

Claim 2, line 1, "the resin is made an epoxide resin", this limitation is not clear to what applicant might want to claim, maybe the applicant wants to claim that the resin is an epoxide resin.

Claim Rejections - 35 USC § 102

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

5. Claims 1-4 are rejected under 35 U.S.C. 102(b) as being anticipated by Abele (US. 4,691,928).

Art Unit: 3676

Abele discloses a sealing ring comprising a lip ring (2) including an elastomeric material (2 is made of elastomeric material), a supporting (3) joined to the lip ring and the supporting ring including a resin (3 is made of resin and particularly epoxide resin). The resin is an epoxide resin. The supporting ring and the lip ring are integrally joined.

Regarding claim 3-4: The supporting ring and the lip ring are integrally joined by *vulcanization and the supporting ring is capable of being produced in one of a primary forming and a reforming process (these are method limitations which are not given patentable weight in an apparatus claims).*

Conclusion

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Uchiyama et al, Micca et al, Colanzi et al, de Vries, Jr. et al, Linne, Heine et al and Johnston et al all teach to have a sealing ring made of a lip ring and a supporting ring joint to the lip ring that is formed of plastic or thermoplastic or thermosetting materials.
